

The **Delaware Valley Power Quality Group** is a volunteer not-for-profit organization dedicated to providing a state of the art educational forum for the exchange of information pertaining to Power Quality issues and the most technically up to date products and practices.

Directions and map

The NEW Shady Maple Smorgasbord, recently featured in the Philadelphia Inquirer, is located at 1352 Main St (PA Route 23), East Earl, PA; 8 miles west of Exit 298 (old Morgantown Exit 22) of the PA Turnpike. From the Turnpike, follow the signs to Route 23. Shady Maple is located in their new large facility on the south side of Route 23 at Route 897 behind the old restaurant.

On behalf of:

You are cordially invited to the
Quarterly Meeting of the
Delaware Valley Power Quality Group

to be held from 8:00 AM to 5:00 PM on
Tuesday, December 03, 2002 at

The NEW
Shady Maple Smorgasbord
1352 Main St. (Route 23)
East Earl, PA 17519

Meeting Agenda:

**Grounding and the 2002 National
Electrical Code**

Main Speaker:

Mike Holt
Mike Holt Enterprises, Inc.

Grounding and the 2002 National Electrical Code

Program Summary:

Grounding and Bonding of electrical systems, sensitive electronic, and communications equipment is the most important and least understood activity in the electrical, data processing and communications industry. Mike, will explain the following topics in an informal and relaxed style using PowerPoint 4-color graphics and examples that apply to today's electrical installations. Those attending this high-energy program will learn the basics as well as the advance concepts necessary to understand the practical grounding and bonding rules in the NEC for systems not over 600V.

Speaker: Mike Holt, Mike Holt Enterprises, Inc.

Mike worked his way up through the electrical trade from an apprentice electrician to a master electrician and electrical inspector. Realizing that success depends on one's education, Mike later attended the University of Miami's Graduate School for a Masters in Business Administration (MBA). His own educational experience allows him to understand the needs of his students, whom he strongly encourages and motivates to continue their own education. As an Educator, Mike is nationally recognized as one of America's most knowledgeable electrical trainers and has touched the lives of many thousands of electricians, inspectors, contractors and engineers. His dynamic and animated teaching style is relaxed, direct and fun. The quality that sets Mike apart from the others is his ability to motivate his students to become successful. As a Code Expert, Mike has devoted his career to studying and understanding the National Electrical Code,® the foundation of the electrical industry. Researching the NEC all these years and understanding its background has not only made Mike an expert, but it has earned him the respect of his peers. As an Author, Mike is a well-respected author and developer of software, books and video training programs. He has mastered the art of explaining the complicated in a simple but direct style. His ability to simplify technical concepts makes him one of America's most sought after speaker and writer in the electrical trade. His extensive use of illustration in all of his training programs makes learning fun. His articles have been seen in numerous magazines, such as Electrical Construction & Maintenance (EC&M), CEE News, Electrical Design and Installation (EDI), Electrical Contractor (EC), International Association of Electrical Inspectors (IAEI News), The Electrical Distributor (TED) and Power Quality (PQ) Magazine.
