

On behalf of:

The **Delaware Valley Power Quality Group**, established in 1993, is a volunteer not-for-profit organization dedicated to providing a state of the art educational forum for the exchange of information pertaining to Power Quality issues and the most technically up to date products and practices.

Directions

The Shady Maple Smorgasbord, featured in the Philadelphia Inquirer, is located at 129 Toddy Lane, East Earl, PA. Take the PA Turnpike to Exit 298 (old Morgantown Exit 22). From the Turnpike, follow the Morgantown exit to 2nd traffic light then take Route 23 West (becomes Main St.) for approximately 10 miles to Route 897 to Toddy Lane.

You are cordially invited to the
Quarterly Meeting of the
Delaware Valley Power Quality Group

to be held from 10:00 AM to 3:00 PM on
Wednesday, December 7th, 2016 at

Shady Maple Smorgasbord
129 Toddy Lane
East Earl, PA 17519

Meeting Agenda:

Liquid Filled and Dry Type Transformers

Main Speaker:

Kevin W. Eaton
ABB

IT'S TIME TO RENEW YOUR DVPOG
MEMBERSHIP FOR 2017. 3 YEAR
RENEWAL IS THE BEST VALUE!

Liquid Filled and Dry Type Transformers

Program Description:

ABB will present an overview of liquid and dry type distribution transformers, including design considerations that can impact the safety, reliability, efficiency, and power quality of your facility. We will compare the benefits of liquid and dry type transformers and discuss which technologies are the best for different applications. The program will include an overview of the transformer manufacturing process including short videos highlighting our manufacturing facilities. We will review the recent DOE 2016 efficiency requirements and discuss the benefits of utilizing total ownership cost in your purchasing decision as well as provide an overview of sustainable transformer offerings including high efficiency amorphous core material and environmentally safe fluids. Our experts will also discuss application considerations that impact transformer design, including harmonics, motor duty and specialty applications. Finally, we will review ANSI Standard transformer testing and transformer maintenance considerations.

Speaker:

Kevin Eaton is the Business Development Leader for ABB's North American Market Dry Type Transformer division. He has a BS degree in Engineering Technology and has almost 20 years' experience in the electrical field between his time as a certified electrician (journeyman/wireman) and the manufacturing and supply side of the business. His experience in the industry includes Elec-Tech Electrical Services, Square D/Schneider Electric and presently ABB.

His area of expertise includes NEC codes and standards, quality assurance, supply chain management, product application and sales, product development and production marketing and commercial operations.
