National Electrical Code (NEC): Technical Changes from 2017 to 2020, and from 2020 to 2023 Editions

Special Note: Adoption of the NEC editions varies by state and in some cases municipal jurisdiction. New code adoptions are coming. Are you ready?

Program Description:

Our presenter, Mike Hofkin, will use his vast experience as an Electrical Inspector and renowned instructor of electrical codes to provide technical details of changes and updates to the National Electrical Code from the 2017 to 2020 and most recent 2023 editions.

Mike encourages NEC code questions from the audience and will explain changes particular to commercial, industrial, and institutional buildings.

Please join us to stay current on the National Electrical Code, NFPA 70.

Speaker: Michal Hofkin, UL Solutions

Michal Hofkin joined UL as a Lead Regulatory Engineer in the Codes and Regulatory Services Department in May of 2021. Michal is responsible to lead UL's regulatory efforts in the northeast United States serving the Eastern Section of the International Association of Electrical Inspectors (IAEI) and other industry entities. He will provide code expertise and standards-related guidance to regulatory authorities, manufacturers, designers, and contractors. Michal will also lead and actively participate in model code development efforts and support code-based advisory services solutions for UL clients and municipalities in these disciplines.

Prior to joining UL, Michal enjoyed a twenty-three-year career as an electrical inspector in the Philadelphia metropolitan area, with the last ten years serving as the Regional Manager for a large, multi-state inspection agency. He is a certified electrical inspector and plans examiner. Michal has been an instructor of electrical code and trade courses for thirty-four years. His work with the IAEI has led to his current positions as Secretary of the Benjamin Franklin Chapter He is the past Chairman of the Board at the International level of IAEI. Michal is very active in the code development process, writing public inputs and public comments, has served on a code-making panel, is a former member of several UL Standards Technical Panels, and is a current member of the Sustainable Energy Action Committee (SEAC).
